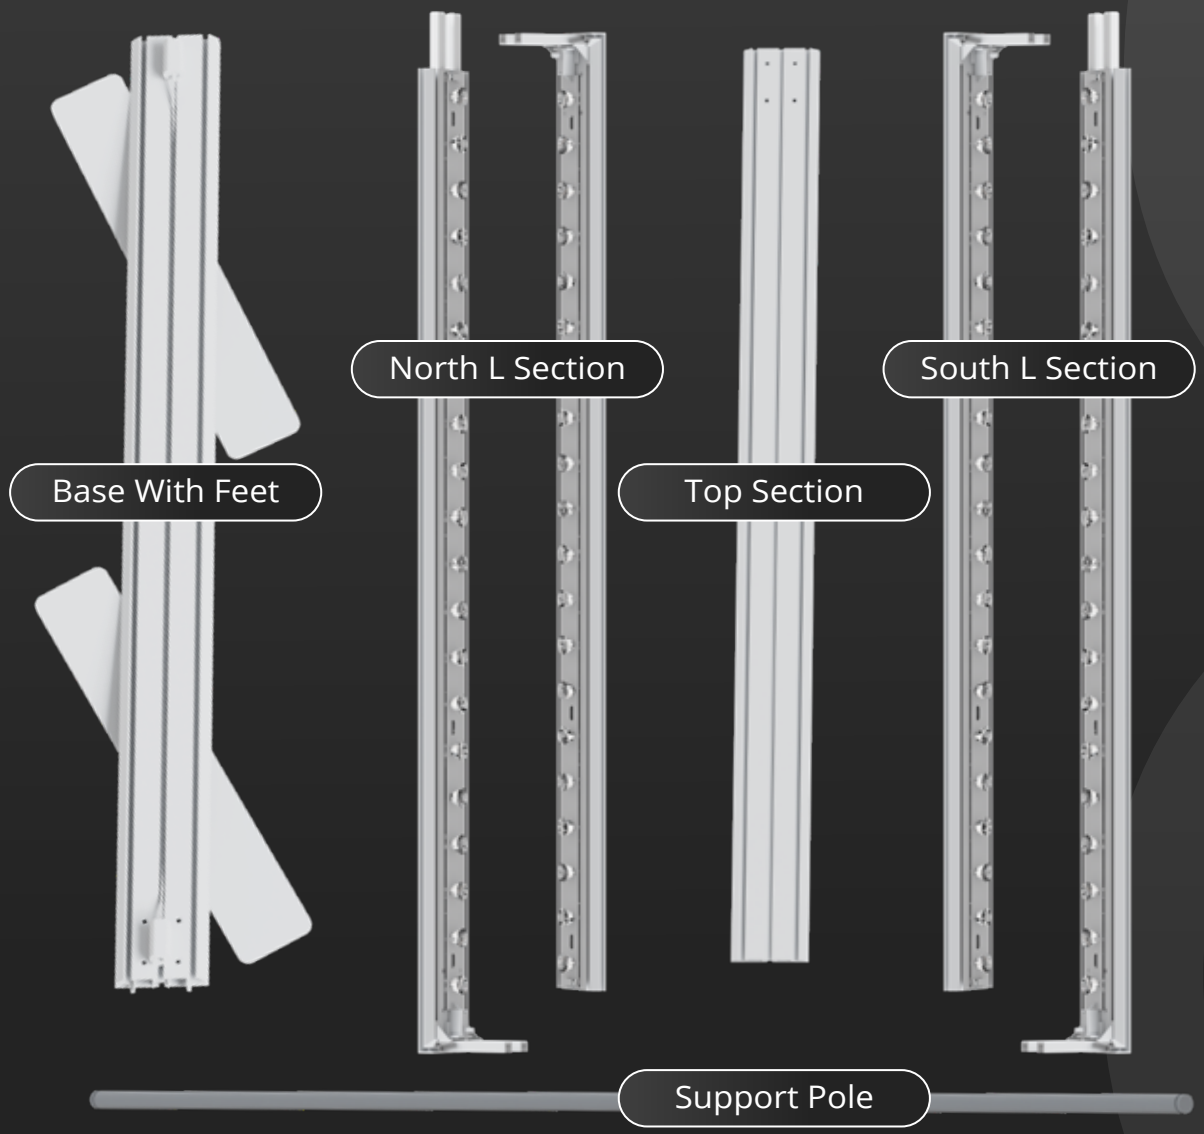
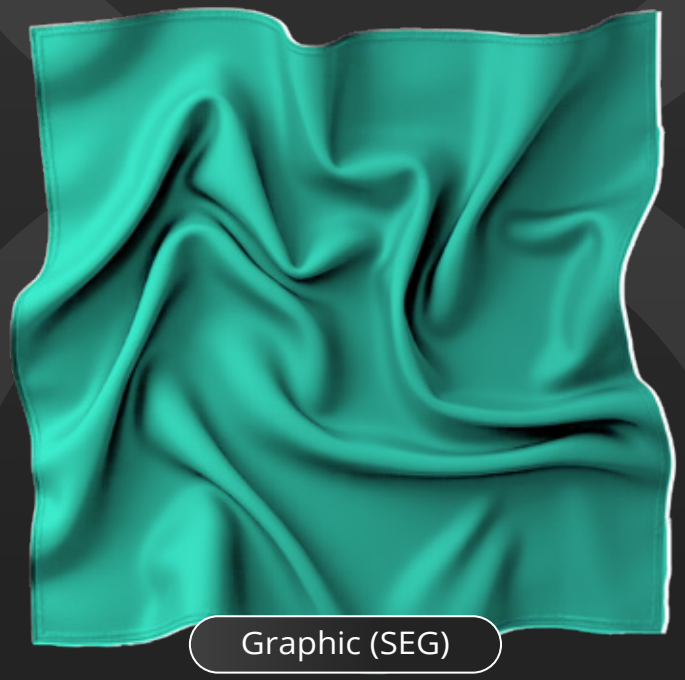
Product Breakdown





Disclaimer: Accessories and connectors sold separately

Affordable Impact
The iLLUMiGO Lite is your go-to solution for high-impact displays at an affordable price. Featuring an elegant 80mm white profile, this double-sided lightbox is designed for versatility and seamless integration in any space.

Flexible Configurations
With a unique channel around the outer edge, the iLLUMiGO Lite allows you to effortlessly link multiple frames in T-shapes, L-shapes, or straight lines, offering endless possibilities for creative setups. Plus, it supports convenient add-ons like literature holders to enhance your display experience.

Magnetic Linking Made Simple
Beyond connectors, the iLLUMiGO Lite features built-in magnets that let frames snap together with ease. This magnetic system makes it quicker than ever to attach, arrange, and reconfigure layouts, ideal for fast setups and dynamic spaces.

Designed for Every Setting
Whether for exhibitions, retail, or corporate environments, the iLLUMiGO Lite delivers brilliance, flexibility, and value in one sleek package.
