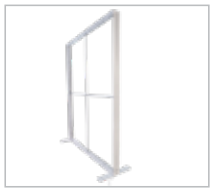
ILLUMIGO™ MODULAR

The Illumigo Modular is a striking large-format illuminated display system, standing at 2389mm high and engineered for exceptional visual impact. Designed with flexibility in mind, it delivers seamless backlit SEG graphics across widths of up to 7.85 metres—making it a standout choice for retail spaces, exhibitions, and promotional environments, all without the premium price tag.



Frame

Pre-fitted Led lights

Wheeled carry bag

Product Specifications

- Free-standing double-sided white aluminium frame, 120 mm thick
- Pre-fitted horizontal LED lights
- Full feet included
- Internal reinforcement tubes
- Graphic attachment with SEG optional
- Nylon wheeled carry bag with foam insert for protection, carry handle and shoulder strap included

Features and Benefits

- Fast Tool-Free assembly: Push-fit frame system with pre-installed LED. Feet push in place and are held using thumbscrews.
- Available in 5 widths: 1850, 2850, 3850, 4850, 5850 mm
- Exceptional expandability: the frame can be extended using either 850 mm or 1000 mm extension pieces
  Perfect for wide-format lightbox applications. Expandable up to 7.85m maximum.
- Frames can be configured in T, L or U shapes (optional connectors)
- Half foot and blind foot available as optional accessories, depending on the chosen configuration
- Accessorisable structures: optional A4 literature holder

Recommanded Media

- Backlit fabric made with 3 x 12 mm SEG
- For double-sided printing, use 2 backlite graphics
  For single-sided printing, use 1 backlite graphic + 1 black back (black out)

The printing templates provided are for guidance only. They take into account internal processes which may vary depending on your equipment, materials and finishes. If you are printing your own material, it is your responsibility to test the compatibility of your media with the product before use.

We are continually improving and modifying our product range and reserve the right to vary the specifications without prior notice. All dimensions and weights quoted are approximate and we accept no responsibility for variance. E&OE.

ILLUMIGO™ MODULAR

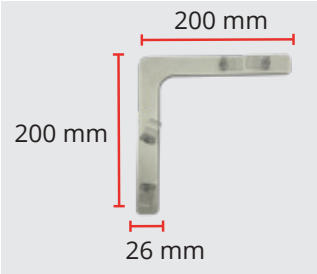
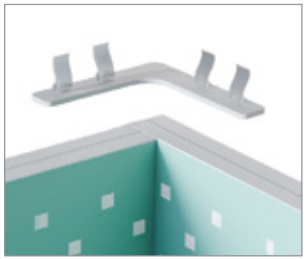
Connectors information (not included with the frame, please order separately)

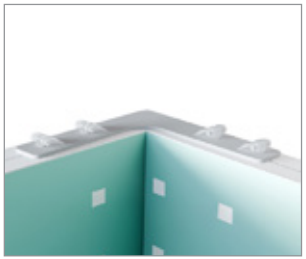
90° configurations

90° Top corner connector:
ILLGO-90TC (sold per unit)

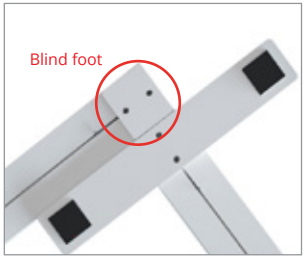
- Designed to join 2 frames at a 90°angle without any loss of space.
- For use only at the top of the frames
- Must be completed with a blind foot at the bottom (ILLGO-MOD-BF, sold separately).







Top view



Bottom view

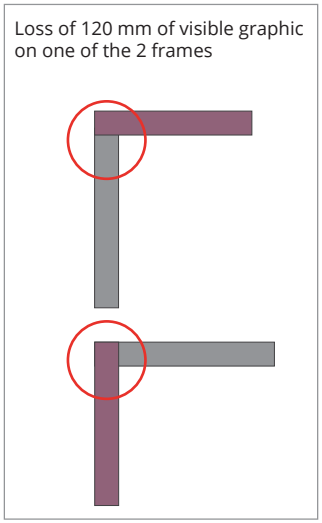


Diagram – Top view of frames

90° Middle inside corner connectors:
ILLGO-MOD-90MIC (4 included)

- Designed to connect 2 frames at a 90° angle.
- Used on the vertical edge of the frames.
- Must be completed with an blind foot at the bottom (ILLGO-MOD-BF, sold separately).

ILLUMIGO™ MODULAR

Connectors information (not included with the frame, please order separately)

T-shape configurations

T-shape connector :
ILLGO-TC (sold per unit)

- Designed to connect 2 or 3 frames in a T-shape.
- For use only at the top of the frames.
- Can be completed with a blind foot at the bottom , depending on the desired configuration (ILLGO-MOD-BF , sold separately).

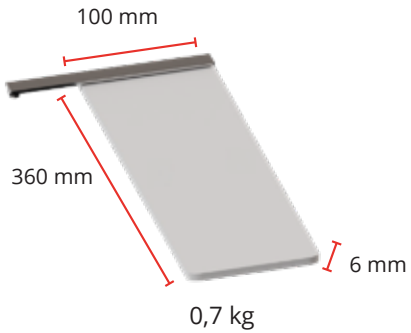
ILLUMIGO™ MODULAR

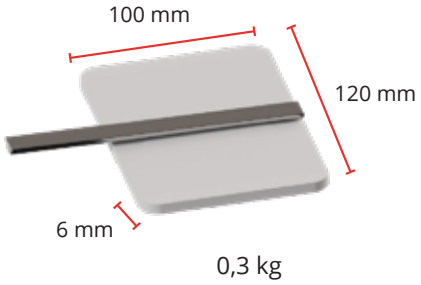
Feet information (not included with the frame, please order separately)

Half Foot



=> Ideal when the frame is used against a wall (maximise space)

Blind Foot



=> Required when 2 frames are assembled at a 90° angle or sometimes in a T-shape.
It replaces the corner foot of one of the frames to allow the 2 frames to be connected (see connectors page).

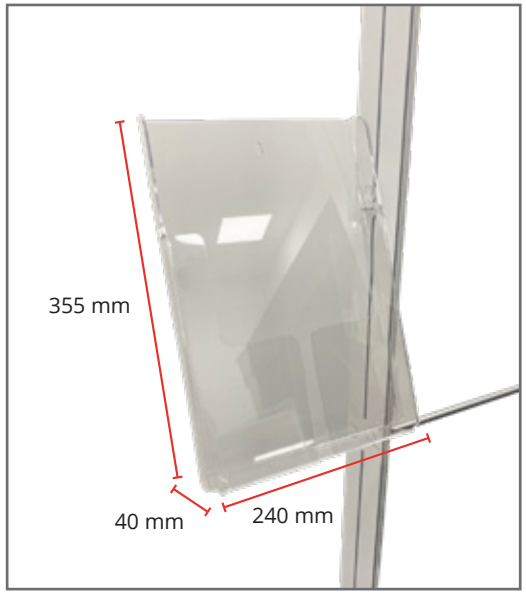
ILLUMIGO™ MODULAR

Literature holder information (not included with the frame, please order separately)



- Acrylic literature holder for A4 documents
- Attaches into the channel profile
- It can be mounted in two ways:
  - Option 1 : from the side of the document holder
  - Option 2 : from the back of the document holder
- Maximum load: 1.1 kg
- For frame stability, install no more than two holders per frame.

Code	Description	Assembled dimensions (mm) w x h x d	Net weight
